

SCOTT PORTABLE OXYGEN SYSTEMS

APPROVED FOR USE UP TO FL30

877.634.4744 ASK FOR "THE OXYGEN LADY"

5600 SERIES

The AVOX Systems 5600 Series Portable Oxygen System is a self-contained breathing system offering **demand, pressure-demand and constant flow capabilities**. It will provide high efficiency supplementary oxygen and respiratory protection for aviation use. The demand and pressure-demand regulators operate with the optional 10100/10800 Smoke Mask to protect the crew while allowing emergency duties to be carried out. The constant flow operation provides high altitude supplementary oxygen for up to two passengers or crew when needed. The 5600 Series is lightweight and easy to operate.

USE DOT APPROVED CYLINDERS: From 4.3 to 48.3 CF

DURATIONS AT 20,000 FT
USING 7CF TO 22 CF TANKS
ON "DEMAND" SETTING FOR SMOKE MASK
SIX TO 30 MINUTES

FOR USE UP TO 30,000 FT

MASKS ARE NOT INCLUDED WITH THE ASSEMBLY

5500 SERIES

The AVOX Systems 5500 Series Portable Oxygen System is a high-performance portable that provides a **constant flow breathing system** for up to 3 passengers or crew members. It is intended to supply supplementary or first aid oxygen. Ideal as a walk-around, the unit is self-contained, lightweight, and easy to operate. A convenient shoulder strap enables the user to have complete mobility. The 5500 can be used with any permanent or disposable rebreather constant flow-type mask.
